

**When it comes
to Cash Flow,
30 Days can seem
like Forever.**

Let **Orange Commercial Credit**
turn your invoices into Quick Cash
with our Same Day Funding program.

Time is money. And the longer you wait to collect on accounts receivable the more it can cost in lost opportunities.

That's why a relationship with Orange Commercial Credit is a smart business decision. We're a factoring company that has helped businesses to prosper for over 20 years. We not only provide the operation capital you need to succeed, but also a long list of other services. For instance, our credit management consultants help your company minimize recurring cash-flow problems and bad-debt losses. We also provide comprehensive credit reports that will take much of the risk out of doing business with new customers. We can even help reduce your overhead by eliminating the need for an in-house credit department.

How our factoring services work

Orange Commercial Credit purchases credit worthy commercial accounts receivable in exchange for immediate cash. This allows you to pay creditors promptly, meet payroll, maintain overhead expenses and pay taxes. Since factoring isn't a loan there are no monthly payments and no debt to reduce your borrowing power. This gives you the flexibility to increase your cash flow not only with the funds you receive from us, but to use all your borrowing power when that becomes necessary. Yet, you may find that there are fewer reasons to borrow since factoring is the only source of financing that grows with your sales. So as your sales increase, more money becomes immediately available to you.

The many benefits of our factoring service

- Stabilize cash flow
- Take trade discounts
- Improve credit rating
- Eliminate payroll and tax worries
- Simple to start and use
- Avoid credit losses
- No loan payments

Features of our factoring services

- Cash within 24 hours
